EDUCATION

- **CMR Institute of Technology** Bengaluru, IN
Bachelor of Technology in Computer Science and Engineering; GPA: 8.5 Sept 2023 – Expected Dec 2027

EXPERIENCE

- **Beacon** Bangalore, IN
Front-End Freelancer May 2024 - June 2024
 - Migrated the codebase from HTML to React.
 - Used Figma to design and implement landing page.

ACHIEVEMENTS

- **2nd Runner up Odoo X NMIT Hackathon** Bangalore, IN
September 2025
- **Runner up CMRIT Social Hackathon** Bangalore, IN
June 2025

PROJECTS

- **Rae - The first true AI Assistant** August 2025
 - Co-founded a startup with 250+ onboarded users, offering a Rust + Tauri-powered desktop app for AI-driven productivity.
 - Implemented a true multi-agent AI system using MCP protocol for tool calling, contextual understanding, and screen analysis.
 - Integrated infinite chat history with supermemory for contextual persistence and seamless continuity.
 - Developed intelligent “Insert Text” feature that automatically finds appropriate locations to modify content.
 - Built using Rust, React, TypeScript, Tailwind CSS, and Tauri.
- **Recipe Verse** April 2025
 - Built a responsive recipe sharing site and App with user authentication.
 - Utilized zustand for state management and prisma ORM for database queries.
 - Visually appealing and responsive interface using Tailwind CSS, ensuring consistent theming and styling across components.
- **LeetBuddy** November 2024
 - Developed a platform where LeetCode users can add friends and check profile stats side-by-side.
 - Solved LeetCode’s lack of social features with username-based lookups.
 - Built using Next.js App Router, MongoDB, and Google OAuth.
 - Designed with responsive SASS-based UI for mobile and desktop.
- **Travelgo** January 2025
 - Developed a Travel assistant using MERN stack.
 - Used open-source APIs for weather and geolocation data.
 - Integrated Google Gemini API to provide location-based insights.
 - Used Figma to design and implement the service.
 - Used Pexels API to fetch related images.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, Rust, Java, Python, C/C++, Go, HTML/CSS

Frameworks & Tools: React, Next.js, Node.js, Express, MongoDB, Tauri, Tailwind CSS, Framer Motion, Next Auth, Prisma ORM, Zod, GraphQL

AI & System Tools: MCP (Model Context Protocol), Multi-Agent Systems, AI Tool Calling, Screen Analysis APIs

Developer Tools: Git, Docker, VS Code, Visual Studio, Android Studio

Libraries: Framer Motion, GSAP, Numpy, Matplotlib
